The contents of this open-access PDF are excerpted from the following textbook, which is licensed under a [Creative Commons Attribution-ShareAlike 4.0 International License](#):

Romanowska, I., C.D. Wren, and S.A. Crabtree. 2021. *Agent-Based Modeling for Archaeology: Simulating the Complexity of Societies*. Santa Fe, NM: SFI Press.

This and other components, as well as a complete electronic copy of the book, can be freely downloaded at <https://santafeinstitute.github.io/ABMA>

REGARDING COLOR:

The color figures in this open-access version of *Agent-Based Modeling for Archaeology* have been adapted to improve the accessibility of the book for readers with different types of color-blindness. This often results in more complex color-related aspects of the code than are out-

lined within the code blocks of the chapters. As such, the colors that appear on your screen will differ from those of our included figures. See the "Making Colorblind-Friendly ABMs" section of the Appendix to learn more about improving model accessibility.
